The Third Term Question Ended

DEVOTED TO HAWAIIAN PROGRESS.

WASHINGTON, May 30th,-The proper time having arrived, an acknowledged authority has spoken in regard to the third term question. President Grant has just written the most important letter of his public career, saying that he is not a tion. candidate for renomination. It will be read with interest and deeper concern by the American people than any political document ever written. The firm and dignified explanation of his silence regarding this matter, will not surprise those who understand the character of the man who has habituated himself, and whose experience has taught him to rely upon his own methods, and whose greatest successes have been won as the result of quiet of an anana, but was a dark, dingy brown, the simple peasantry up to unwonted reindependence of thought and reserved si- and apparently as hard as iron.
